We have worked with Rich Taylor for both remodeling and new home construction plans. We highly recommend him for his creative ideas and beautiful, detailed plans. He is also very patient, friendly and honest. He cared as much about our project as we did and worked well with other professionals on our behalf. His office is in downtown Dublin and he's also a Muirfield resident.

Local guy, 30 years experience. Does high end remodeling, like \$150k kitchens and baths, but for us did simple jobs: replacing a few rotting cedar siding and deck boards, repairing deck bench, replacing plastic louvered fan vents on outside stucco wall. Very honest, fair to low price. A perfectionist, he went over and above our expectations, throwing in little extras at no cost. When it came time to replace our HVAC unit, a neighbor recommended Columbus Worthing Air and we've never been happier. They provided 0% financing and offered us 2 years free maintenance. We continue to pay for a twice-yearly maintenance and they contact us when it is time to check out the heating unit in the fall and the AC unit in the spring. Their servicemen are usually the same individuals whose appearances are always clean-cut and neat.

I have worked with Matt and his crews over the years on various painting projects and couldn't be happier with the process and result on each project. They took their time to help me understand the process and gave guidance on product and paint colors. Our current home in Muirfield has only had interior paint work done since we bought it in 2016 but they will be painting the exterior this year after approvals from the design committee. They have painted a handful of neighbor's homes as well and each neighbor has thanked me for the referral and was extremely happy! Its hard to find good contractors these days to be honest so I always share the good ones when I find them!

REMODELING - GENERAL

RP Contractors, Contact: Rob Pratt

740-505-2028

Local guy, 30 years experience. Does high end remodeling, like \$150k kitchens and baths, but for us did simple jobs: replacing a few rotting cedar siding and deck boards, repairing deck bench, replacing plastic louvered fan vents on outside stucco wall. Very honest, fair to low price. A perfectionist, he went over and above our expectations, throwing in little extras at no cost. [note to Paula -- we could put hi in a few categories, like Handyman, but especially under Remodeling. This guy was great.

Skylight Plus replaced two tempered insulated glass units for two of our skylights. They responded very quickly with an estimate and completed the work on schedule. One of the replacement glass units was scratched, Skylights Plus noticed that, and had that unit replaced before we even noticed the scratch. When we received the invoice, the amount was 15% below the estimate. We thought the original estimate was reasonable. The work was done quickly, the work site kept clean, and all debris removed.
